# NotaPack<sup>®</sup> 6

Your entry to fully automated  
banknote packaging

# Automation system for increased efficiency

NotaPack 6 provides a fully automated packaging solution that simultaneously increases efficiency and improves security for central banks, commercial banks, and CITs. Its modular structure allows for different cash center layouts and facilitates connections with up to three BPS machines – making it an impressive, economical solution for banknote packaging

# 2,880,000

maximum banknotes  
per eight-hour shift

## Security

NotaPack 6 securely wraps banknotes in transparent, tamper-proof film. Combining high packaging quality with an optional fully closed system ensures maximum security for your end-to-end operations. The optional labeling of bundles further increases the security of your operations. Printed label information, for instance, enables tracing of the bundle to a process-specific date and time

## Efficiency

With fully automatic operation and ergonomic and user-friendly design, NotaPack 6 is the ideal solution for efficient packaging automation. NotaPack 6 offers a throughput of up to six bundles per minute, with 500 or 1,000 banknotes per bundle, and connects with up to three BPS systems

## Flexibility

You can choose from more than 30 modules and options to meet your individual security and functional needs. NotaPack 6 can be attached to up to three BPS M3/M5/M7 machines with up to 20 stackers per system and enables multi-denomination packaging without conversion

## Reliability

Based on the reliable NotaPack platform, the proven L-sealing technology perfectly aligns with the BPS system interface. By utilizing bundle condition monitoring, NotaPack 6 ensures that only intact bundles enter the packaging module
