[More information](#)

Security Verification

To set up the additional security verification, you need to register a phone or a device.

You can choose to be contacted via:

- Phone call or text message to your mobile phone
- Phone call to your office phone
- Installing the multifactor authentication mobile app on a smart phone or a mobile device.

This option is recommended.

If you choose the mobile app, proceed as follows:

- [1]** Download the mobile app „*Microsoft Authenticator*“ from your app store.
- [2]** Click the configure button, and follow the instructions to configure the app.

For more information:

- [3]** Click on **View video** or go to:
<https://channel9.msdn.com/posts/Multi-Factor-Account-Setup>

Additional security verification

Secure your account by adding phone verification to your password [View video](#)

Step 1: How should we contact you?

Authentication phone

Germany (+49) 1728331220

Method

Send me a code by text message

Call me

Your phone numbers will only be used for account security. Standard telephone and SMS charges will apply.

Once the verification process is successfully completed, you reach the home page of the Business Portal.

From here you can access the designated services.
