At Money 20/20 Europe 2019, G+D Mobile Security will showcase an E2E customer journey, including a secure digital customer onboarding, a compliant two-factor authentication with biometrics and safe digital payment solutions.

Money20/20 Europe 2019, taking place from 3rd to 5th June in Amsterdam, is Europe's largest marketplace for ideas, connections and deals in payments, FinTech and financial services. At this event, where the ecosystem's most influential leaders come to learn, network and do business, G+D showcases at booth E60 its digitalized E2E banking journey showcase. This includes a digitalized KYC onboarding and identity authentication use case, a use case showing safe provisioning with tokenization, and payments via PSD2 compliant mobile authentication and biometrics.

On Monday the 3rd of June at 3 p.m. visitors of Money 20/20 Europe 2019 are invited to a fire-side talk at G+D's booth. Paolo Battiston, EVP Digital Payments & Labs, Mastercard Europe, and Xavier Vaslin, Head of Payment'LAB at Crédit Agricole Payment Services, will join G+D experts in a discussion on the future trends in digital payments. This session is open to everyone and offers the chance to network in connection with the talk.

Interested parties who cannot be in Amsterdam have the opportunity to meet G+D's authentication expert Andy Ramsden in a live streamed panel from the venue. On Tuesday the 4th of June, he will share insights on the topic "Cybersecurity and Fraud: Securing the Financial Sector", and how banks can secure their customers with mobile authentication solutions.

"We can hardly wait for the starting signal for Money 20/20 Europe 2019 and are already looking forward to the many exciting discussions, contacts and people who await us there," said Gabrielle Bugat, Head of Financial Service Solutions at G+D Mobile Security. "The future of money is being shaped in Amsterdam and G+D will play a decisive role in designing this future with its innovative and secure solutions".
